Identifying HELPERS

Background:
In 12 Step Programs, individuals are recommended to obtain a sponsor, which is a person of the same sex, who has successfully worked the 12 Step program to the degree where they are qualified to help someone else work the Steps effectively.

If you can get a sponsor that can be highly effective.

Questions for consideration:

- Do you or does someone you know have a sponsor?
- Did you ever have a sponsor in the past?
- If you did have a sponsor what was it like? (Was is a positive experience?)

An Alternative – Finding Helpers:

A helper is like a sponsor but the rules are a lot less strict, making them much easier to find. A helper is simply anyone who can supportively guide someone though the change process. There are no restrictions on sex, age, or experience when it comes to someone being a good helper. You can have more than one helper at a time.

A helper has to be someone who is:

- Willing to help you, (He or she should care enough about you that if you asked for their help they would agree to help and –
- Able to help you (He or she is stable* enough and wise enough to provide valuable support and guidance. *For example you don’t want to select someone whose current problems are even worse than yours!)
